Please read this Operating Instructions before using and save for future reference. This manual is designed to be used with your Proprietary Telephone and a Panasonic KX-TDA200/100.
Before Initial Use

Thank you for purchasing a Panasonic Digital Proprietary Telephone. Please read IMPORTANT SAFETY INSTRUCTIONS on page XX before use. Read and understand all instructions.

◆ When you ship the product

Carefully pack and send it prepaid, adequately insured and preferably in the original carton. Attach a postage-paid letter, detailing the symptom to the outside of the carton. DO NOT send the product to the Executive or Regional Sales offices. They are NOT equipped to make repairs.

◆ Product service

Panasonic Servicenters for this product are listed in the servicenter directory. Consult your authorized Panasonic dealer for detailed instructions.

◆ Helpful hints for the handsfree operation

• If the other party has difficulty hearing you:
  Lower the speaker volume.

• Absorbing echoes:
  Use this unit in a room which has curtains and/or carpeting.

• To avoid missing part of the conversation:
  If you and the other party speak at the same time, parts of your conversation will be lost. To avoid this, speak alternately.

Accessories (included) For extra orders, call toll free 1-800-332-5368

Before Operating the Telephones

Connection

The telephone line cord (included)

Connect to a Digital Hybrid IP PBX (PABX TO MAIN UNIT)

Connect to a digital proprietary telephone for DXDP, or a single line telephone for XDP, or a standard telephone jack (TO TEL).

CAUTION
Ensure the cord is inserted in the groove to prevent damage to the connector.

Consult your dealer for more details about DXDP and XDP.

Tilt Angle Adjustment

The tilt angle of the operation board can be adjusted.

To lift: Lift up the operation board.

To set down: Lift up the operation board until the hook knobs click ( ), then press down ( ).
Before Operating the Telephones

Setting

Speaker volume

While in on-hook or during a conversation

Press SP-PHONE. Press Up or Down.

Handset/Headset volume

While using a handset or headset

Press Up or Down.

Ringer volume

KX-T7625

While in on-hook or receiving a call

Slide the lever of the RINGER Volume Selector to the desired setting (OFF/ON).

KX-T7630/33/36

While in on-hook or receiving a call

Press "RING". Press Up or Down.

Display contrast

KX-T7630/33/36

While in on-hook or receiving a call

Press "CONT". Press Up or Down.

Icon Descriptions

The following icons show you the feature availability, note and action to use the features.

Off-hook (One of the following):
- Lift the handset.
- Press the SP-PHONE button.
- Press TALK button.

Press the desired number keys on the telephone.

Off-hook (One of the following):
- Hang up.
- Press the SP-PHONE button.
- Press CANCEL button.

You will hear a confirmation tone.

Note
Making Calls

**Calling Another Extension**

Off-hook. ➔ Dial **extension number**. ➔ Talk.

**Calling an Outside Party**

Off-hook. ➔ Press an idle **CO** button. ➔ Dial **outside phone number**. ➔ Talk.
Receiving Calls

Answering Calls

- Off-hook.
- Talk.

Select one of the following methods:
- Lift the handset to receive the preferred line.
  (Default: Ringing line is selected.)
- Press the SP-PHONE button.
- Press the flashing CO, INTERCOM or G-DN button directly.
During a Conversation

- Transferring a Call
  - Transferring to an extension
    - Off-hook.
    - Dial extension number.
    - Talk.

- Transferring to an outside party
    - Off-hook.
    - Press an idle CO button.
    - Dial outside phone number.
    - Talk.

- You can transfer a held call without talking by going on-hook. If a call is not retrieved within a specified time, you will hear an alarm as a reminder.
- To return to the held call before the destination answers, press the TRANSFER button, corresponding CO, G-DN or INTERCOM button.
During a Conversation

**Holding a Call**

*To hold*

- **Press HOLD.**
- **On-hook.**

*To retrieve*

- **At the holding extension**
  - Off-hook.
  - Press flashing CO/INTERCOM/G-DN.
  - Talk.

- **For an outside call from another extension**
  - Off-hook.
  - Press flashing CO.
  - Talk.

- **For an outside call from another extension**
  - Off-hook.
  - Enter #51.
  - Press flashing DSS.
  - Talk.

- If a call is not retrieved within a specified time, you will hear an alarm as a reminder.
- The CO, G-DN or INTERCOM button light shows the current status as follows:
  - **Flashing green slowly**: Your held call
  - **Flashing red**: Another extension's held call.
**Using the Display Proprietary Telephone**

**Incoming Call Log**

When you receive an outside call, the caller's information is recorded automatically in the incoming call log. When the Call Log button light turns on, there is a call which you do not answer.

The information shows as follows:

**Information sample (KX-T7636)**

| Caller’s Name | Caller’s Phone Number | Date & Time of a call received | Status – Old: Confirmed  
<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>BOB SMITH</td>
<td>0924771458</td>
<td>01 JAN. 08:00AM MON</td>
<td>Old: No Answer</td>
</tr>
</tbody>
</table>

**To confirm the log information**

- **With the Call Log button**
  
  While in on-hook
  
  Press Call Log.

- **With the Navigator key**
  
  Press Left.  
  Press ENTER.

**To clear the log information**

- Press "CLEAR".

**To call**

- When the desired party is displayed
  
  Off-hook.
Using the Display Proprietary Telephone

◆ To store the caller's information for personal speed dialling

When the desired party is displayed

Press "STORE".

• The Call Log button light shows the current status as follows:
  - Off: No incoming calls. Or you have already confirmed/received the call log.
  - Red on: You have never confirmed/received it yet.

◆ Outgoing Call Log

You can redial with the outgoing call log.

◆ To call

While in on-hook

Press Left. Press ENTER. Press Up or Down until desired number appears. Off-hook.

• You can lock your call log by using a password, so that you can deny showing your call log information. Consult your dealer for more details.
Using the Display Proprietary Telephone

♦♦ Using the Directories

You can select and call with the directories as follows:
- Personal Speed Dialling Directory
- System Speed Dialling Directory
- Extension Number Directory

♦ Calling with the directory

While in on-hook

Press Right until desired directory appears.* Press ENTER. Press Up or Down until desired party appears. Press ENTER.

* The display order is as follows:
  - One time: Personal Speed Dialling Directory
  - Two times: System Speed Dialling Directory
  - Three times: Extension Number Directory

* To cancel or exit the current display, press EXIT.

♦ Storing the names and numbers in the personal speed dialling directory

While in on-hook

Enter phone number (max. 32 digits). Press ENTER. Enter name* (max. 20 characters). Press ENTER. Press PROGRAM or PAUSE.

* To enter characters, refer to "Entering Characters".
Using the Display Proprietary Telephone

Entering Characters

To store a name or message, you can enter the following characters. The tables show you the characters available for each button.

Wall Mounting

1. Pull down the handset hook until it locks, so the tab holds the handset.

2. Lift up the operation board until the hook knob clicks (1), then press down (2).

3. Attach the wall mounting plate.

4. Mount the unit on the wall.

To temporarily place the handset down during a conversation, hook it over the top edge of the phone as shown.

* The illustrations used in this page are a KX-T7636.
Installing the KX-T7601/KX-T7603

**KX-T7601**

The USB unit can be connected between the digital proprietary telephone and the personal computer through USB interface to implement personal CTI (Computer Telephony Integration).

1. Remove the connector cover using a plier.
2. Insert the cable into the connector.
3. Couple both hinges and slide in the unit.
4. Push down the cover until it locks.

**KX-T7603**

The function key unit has 12 CO buttons. These buttons are used to seize an outside line, make a call using one-touch dialling, or access certain features.

1. Open the cover.
2. Attach the KX-T7603 to your telephone with screws.
3. Insert the cable into the connector.
4. Close the cover.
Important Safety Instructions

When using your telephone equipment, basic safety precautions should always be followed to reduce the risk of fire, electric shock and injury to persons, including the following:

1. Read and understand all instructions.
2. Follow all warnings and instructions marked on the product.
3. Unplug this product from the wall outlet before cleaning. Do not use liquid cleaners or aerosol cleaners. Use a damp cloth for cleaning.
4. Do not use this product near water, for example, near a bath tub, wash bowl, kitchen sink, or laundry tub, in a wet basement, or near a swimming pool.
5. Do not place this product on an unstable cart, stand, or table. The product may fall, causing serious damage to the product.
6. Slots and openings in the cabinet and the back or bottom are provided for ventilation, to protect it from overheating, these openings must not be blocked or covered. The openings should never be blocked by placing the product on the bed, sofa, rug, or other similar surface. This product should never be placed near or over a radiator or heat register. This product should not be placed in a built-in installation unless proper ventilation is provided.
7. Do not allow anything to rest on the telephone cord. Do not locate this product where the cord will be abused by persons walking on it.
8. Do not overload wall outlets and extension cord as this can result in the risk of fire or electric shock.
9. Never push objects of any kind into this product through cabinet slots as they may touch dangerous voltage points or short out parts that could result in a risk of fire or electric shock. Never spill liquid of any kind on the product.
10. To reduce the risk of electric shock, do not disassemble this product, but take it to a qualified serviceman when some service or repair work is required. Opening or removing covers may expose you to dangerous voltages or other risks. Incorrect reassembly can cause electric shock when the appliance is subsequently used.
11. Unplug this product from the wall outlet and refer servicing to qualified service personnel under the following conditions:
   A. When the power supply cord or plug is damaged or frayed.
   B. If liquid has been spilled into the product.
   C. If the product has been exposed to rain or water.
   D. If the product does not operate normally by following the operating instructions. Adjust only those controls that are covered by the operating instructions because improper adjustment of other controls may result in damage and will often require extensive work by a qualified technician to restore the product to normal operation.
   E. If the product has been dropped or the cabinet has been damaged.
   F. If the product exhibits a distinct change in performance.
12. Avoid using a telephone (other than a cordless type) during an electrical storm. There may be a remote risk of electric shock from lightning.
13. Do not use the telephone to report a gas leak in the vicinity of the leak.

SAVE THESE INSTRUCTIONS
FCC and Other Information

NOTE:
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

WARNING:
TO PREVENT FIRE OR SHOCK HAZARD, DO NOT EXPOSE THIS PRODUCT TO RAIN OR ANY TYPE OF MOISTURE.

CAUTION:
To assure continued compliance with FCC rules, do not make any unauthorized modifications. When programming emergency numbers and/or making test calls to emergency numbers:

1) Remain on the line and briefly explain to the dispatcher the reason for the call before hanging up.
2) Perform such activities in the off-peak hours, such as early morning hours or late evenings.

If there is any trouble, disconnect the unit from the extension line and connect a known working phone. If the known working phone operates properly, have it repaired by one of the specified Panasonic Factory Service Centers. If the known working phone does not operate properly, check the Electronic Modular Switching System and the internal extension wiring.

- Keep the unit away form heating appliances and electrical noise generating devices such as fluorescent lamps and motors.
- The unit should be kept free of dust, moisture and vibration, and should not be exposed to direct sunlight.
- Do not use benzine, thinner, or the like, or any abrasive powder to clean the cabinet. Wipe it with a soft cloth.
- Do not use any handset other than Panasonic handset.

This telephone provides magnetic coupling for hearing aids.
