COVID-19 Accelerates Azure Adoption Among TSC's Customers

Leading Managed Technology Services Provider (MTSP) Reports on Spike in Cloud Demand from Small to Mid-Sized Businesses (SMBs)

CARBONDALE, CO – November 2020 - TSC, a leading managed technology services provider (MTSP), announced today that the COVID-19 pandemic has drastically increased the forecasted demand for cloud solutions among SMBs, even beyond what most were expecting. Due largely to the increased need for Work-From-Home (WFH) solutions, SMBs are investing heavily in the cloud, through services like Microsoft Azure, to equip their organizations with the virtualization solution necessary to take their businesses to the next level. As a result, TSC is helping more and more SMBs transition their on-premise IT network to Microsoft's Azure.

It's no secret that most businesses have shifted their operations to hybrid environments, if not fully-remote, and as that shift has occurred the corresponding increase in demand for cloud IT has also grown. According to

the *2020 State of the Cloud Report*, by Flexera, "50% of SMBs are expecting their cloud usage to be higher than planned due to COVID-19." Whether a business owner decides to embrace this tech or not is more of a moot point, because it's highly likely that in the very near future their clients, customers, suppliers and prospects will all be utilizing this technology and they will eventually be using it, too, to remain relevant.

With more than 95% of Fortune 500 companies utilizing Microsoft Azure, it's only a matter of time before it becomes ubiquitous. Barry Cryer, President of TSC commented, "Azure is the ideal environment for SMBs to enhance their IT environment because a hybrid workforce is now the new norm. For the business owner, this means that they have immediate scalability within their IT, the flexibility to instantly reduce expenses if they need to adjust headcount and a foundation to support their easily predictable usage of more cloud-based applications in the future."

In such uncertain times, business owners are looking to

position themselves with maximum flexibility and security when it comes to their IT. With cloud IT solutions, companies can "pay for what they use, as-they-go" and nothing more.

ABOUT TECHNOLOGY SYSTEMS CONSULTANTS

Founded in 1992, Technology Systems Consultants is committed to establishing and maintaining a dynamic partnership with every customer. Extensive technology and service experience allows the TSC team to develop an understanding of each customer's unique telecommunications requirements, and to respond to those requirements quickly and effectively.

TSC's local dispatch center delivers round-the-clock service to ensure system reliability. TSC also offers comprehensive service 24 hours a day, 7 days a week and emergency service guaranteed within 4 hours.
